

NEW: Hörmann homee

The flexible Smart Home system for simple app operation of garage door and entrance gate operators, entrance door locks, door operators and other compatible devices such as security cameras, heating thermostats or roller shutters

HÖRMANN

Flexible Smart Home system Hörmann homee

With the Hörmann homee Brain Smart Home control centre, you can open and close your Hörmann doors and gates even more conveniently. At any time of day or night, from anywhere around the world – by simply using your smartphone, tablet or PC. In addition, the system is extremely safe, easy to use and can be extended with other compatible devices such as security cameras, weather stations, lighting, switches, heating thermostats, roller shutters and blinds, smoke and movement detectors, or window and door contacts.

Convenient operation

Free app for smartphones and tablets

Web app for PC

Voice control via Amazon Alexa, Google Assistant, Apple Siri

Easy installation

The Hörmann homee Brain Smart Home control centre is simply integrated into your home network via a WiFi connection* to your router.

* Optional LAN adapter available

Useful functions

Automation with Homee grammars (for further information, see page 4)

Simple operation by grouping devices

Weather forecast

Time / calendar function

Versatile radio control

Hörmann BiSecur radio system as standard

For an exact list of compatible Hörmann products, please refer to the compatibility overview at www.hoermann.com/en/media-centre/

WiFi radio system as standard

Compatible with Smart Home systems: AVM Smart Home, Netatmo, Belkin, Nuki, Homematic, myStrom, WOLF Haustechnik

Garage door operators

Entrance gate operators

Security (e.g. alarm systems and cameras, smoke and movement detectors, window and door contacts, roller shutters and blinds)

Door operators

Entrance door locks

Convenience (e.g. lighting, radio receivers, switches)

Socket receivers

Energy-saving (e.g. heating thermostats, weather stations, rain sensors)

Clear, simple, individual

1 Convenient operation

All functions that you control with your hand transmitters can also be executed with the app. The intuitive menu navigation and a clearly organised navigation structure makes operation a breeze.

2 Simple overview

With the app, you have an exact overview of the status of your garage door and entrance gate, your entrance door lock and other connected devices at all times. Self-explanatory icons show you whether your doors are open or closed or whether your entrance door lock is locked or unlocked.

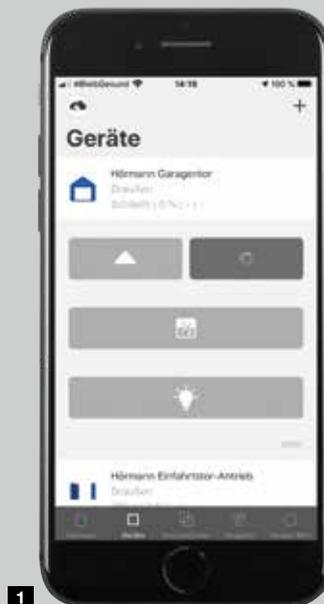

3 Setting up “scenarios”

Simply combine several individual functions to create scenarios, or so-called Homeegramms, to suit your needs. A scenario means that, at the press of a button, you can open or close your garage door and entrance gate at the same time, or control your entrance door together with your external lighting. You create the Homeegramms individually for your personal app usage – exactly the way you want them to be.

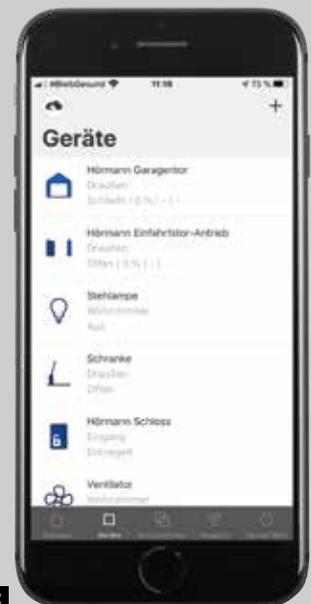

4 Worldwide networking

Whether on the couch, in the office or on vacation: If required, you can have full control over your networked devices at all times and can choose to be informed by push message* if, for example, the entrance door lock is unlocked via the app or the movement detector detects a person.

* Only in conjunction with a corresponding Homeegramm.

Expand your possibilities

The Hörmann homee Brain Smart Home control centre with BiSecur and WiFi radio as standard can be expanded at any time with new cubes, and therefore with additional radio systems. Each cube is responsible for another radio technology and can “talk” to other devices.

ZigBee radio system

Optional cube, compatible with Smart Home systems: Philips Hue, Bitron, IKEA

EnOcean radio system

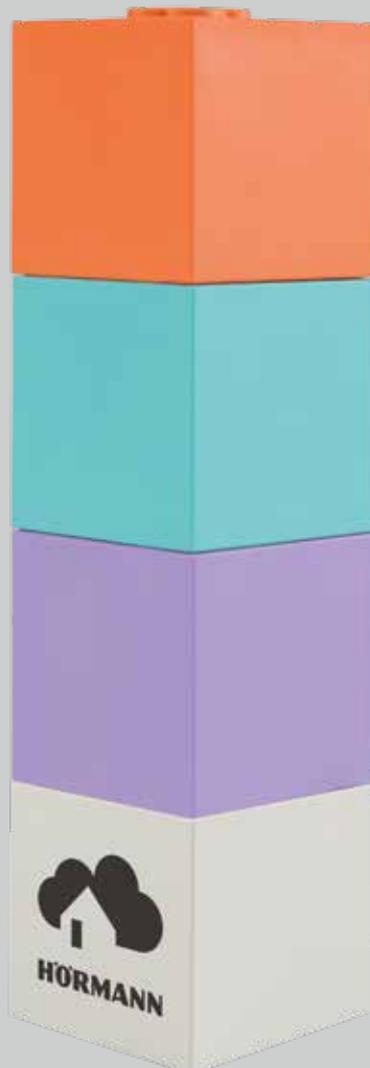

Optional cube, compatible with Smart Home systems: AFRISO, Eltako

Z-Wave radio system

Optional cube, compatible with Smart Home systems: Aeotec, Danfoss, Devolo, Everspring, Fibaro

WiFi radio system

Integrated in Hörmann homee as standard, compatible with Smart Home systems: AVM Smart Home, Netatmo, Belkin, Nuki, Homematic, myStrom, WOLF Haustechnik

Security

e.g. alarm systems and cameras, smoke and movement detectors, window and door contacts, roller shutters and blinds

Convenience

e.g. lighting, socket receivers, switches

Energy-saving

e.g. heating thermostats, weather stations, rain sensors

HÖRMANN

Experience Hörmann quality in new construction and modernisation

Hörmann provides an excellent basis for comprehensive planning. Carefully matched solutions offer you the very best in perfectly designed products for every area.

- **Garage doors**

Optimally match your personal architectural style: up-and-over or sectional doors made of steel or timber.

- **Gate and door operators**

Enjoy extra convenience and break-in-resistant security with Hörmann operators for garage doors and entrance gates. You can profit from the convenience of Hörmann door operators in your residential space as well.

- **Entrance doors**

Our comprehensive entrance door ranges include models that fit almost every need and requirement.

- **Residential internal doors**

Our high-quality timber and glass doors give your home an extra level of comfort and integrate harmoniously into the overall appearance of your home.

- **Steel doors**

Sturdy doors for your entire home, from basement to roof.

- **Frames**

Choose from our comprehensive range of products for new construction, expansion and modernisation.
