

Products for residential construction

Garage doors, operators, entrance doors, steel doors, residential internal doors

HÖRMANN

Hörmann brand quality

Top safety and reliability

Made in Germany

Hörmann relies on **state-of-the-art production technology** at highly specialised factories. Computer-controlled operations ensure dimensionally accurate elements with perfectly fitted fittings and functional parts.

Brand quality for generations

Endurance tests under real conditions ensure mature series products with Hörmann quality. This means you can enjoy your Hörmann doors, frames and operators for **many years to come**.

Trust the market leader

**With over 20 million doors and operators sold,
Hörmann is Number 1 in Europe.**

As Europe's leading manufacturer of doors, hinged doors, frames and operators, we are committed to high product and service quality. This is how we set standards on an international scale.

Highly-specialised factories develop and manufacture construction components that are characterised by excellent quality, functional safety and a long service life.

Our presence in the global economy's key regions makes us a strong, future-oriented partner for residential construction.

An eye on the future

Hörmann is setting a good example. This is why the company obtains **100 %** of its energy consumption from **green sources**. Together with an intelligent and certified energy management system, CO₂-neutral mailing and the recycling of valuable materials, **more than 40000 tons of CO₂ are saved each year**. And last but not least, Hörmann also offers products for sustainable construction.

All-inclusive service

Hörmann not only provides you with high-quality products, but also offers **first-class service both before and after you make your purchase**. Authorised Hörmann dealers stand by this promise and offer you competent and friendly advice, correct dismantling of old doors, including their environmentally friendly disposal, and careful measuring to ensure fitting that is perfect, fast and clean.

Garage doors

More convenience and security every day

Sectional garage doors
with plastic frame shoe

Up-and-over garage doors
with rotary catch lock

Sectional garage doors

Hörmann's automatic sectional doors open vertically, saving space in the garage and in front of the garage.

- **ONLY FROM HÖRMANN:** Lasting protection against possible corrosion with plastic frame shoe
- Even spacing and invisible section transitions for ribbed doors
- Authentic, natural and colourfast Duragrain surface finish with 24 decors

Up-and-over garage doors

The garage door classic since 1952 has an excellent price / performance ratio.

- Large choice of over 20 door styles
- User-friendly opening and closing
- **ONLY FROM HÖRMANN:** Secure protection against forced opening with the unique rotary catch lock

Roller garage door RollMatic Overhead garage door RollMatic OD

Garage doors RollMatic open vertically and require minimum space in front of and inside the garage.

- The roller garage door RollMatic means the ceiling remains free and can be used for lamps or as an additional storage space
- The horizontal door RollMatic OD requires minimum headroom and is ideally suited for modernisation in tight spaces
- Integrated counterbalance system on both doors to protect the operator mechanism, for a long service life

Side sliding sectional doors

Hörmann's side sliding sectional door opens to the side instead of upwards. This is particularly advantageous if, for example, the garage ceiling has to remain free to store items (such as ladders).

- Safe opening and closing of the door using double automatic safety cut-out
- **ONLY FROM HÖRMANN:** Convenient pedestrian passage thanks to individually adjustable partial opening combined with door operator
- Sturdy twin rollers for precise door guidance

Door operators

Premium quality from the operator specialists

Hörmann BiSecur: The modern radio system for door operators, lighting and more (further information on page 9)

Garage door operators with mechanical anti-lift kit in the operator boom

Garage door operators

Hörmann garage door operators with BiSecur radio system provide convenience and security.

- NEW: Opening speed* up to 75 % faster with operator SupraMatic 4
- NEW: Efficient LED lighting for up to 5 times more light in the garage
- ONLY FROM HÖRMANN: Secure protection against forced opening with mechanical anti-lift kit in the operator boom, including in the event of a power failure

Entrance gate operators

The Hörmann programme of entrance gate operators with BiSecur radio system includes hinged gate operators in a narrow design as well as compact sliding door operators.

- Reliable automatic safety cut-out for safe door operation in every phase of opening and closing
- Soft start and stop for pleasantly quiet and safe door travel
- Approved and certified operating forces for simple fitting in the most common door sizes and fitting situations

Entrance door operators

Optionally, ThermoSafe and ThermoCarbon aluminium entrance doors can be equipped with door operator EC-Turn. You can make your everyday life easier by opening and closing your entrance door quickly and conveniently with a hand transmitter, code switch or finger-scan.

- Elegantly integrated into the door leaf and frame or as a surface-mounted operator
- Doors are moved with minimal force, offering you a high level of safety and reliable stopping in case of obstacles

Internal door operators

With Hörmann door operator PortaMatic, you can open and close your timber and steel internal doors automatically via hand transmitter or button. Whether you are physically disabled or would simply like more convenience – this technology will make your everyday life easier.

- Easy fitting with socket connection
- Minimum power consumption and up to 25 % cheaper than similar door operators
- Doors are moved with minimal force, offering you a high level of safety and reliable stopping in case of obstacles

* in comparison with Hörmann ProMatic 3

Operator accessories

Luxury at your finger tips

Radio system BiSecur

The bi-directional radio system BiSecur is based on future-oriented technology for the convenient and secure operation of garage and entrance gate operators, door operators, lighting and more.

- Extremely secure BiSecur encryption protocol, developed by Hörmann
- Convenient querying of the door position or the door's locking status
- Worldwide operation with a Smartphone or tablet using the BiSecur app and gateway
- NEW: Hörmann BlueSecur app as a door opener on your smartphone

Mobile accessories

Operate your garage door and entrance gate easily, conveniently and comfortably. Our elegant hand transmitters allow you to open your gate from your car as easily as you would operate a TV.

- Exclusive hand transmitter with high-gloss or textured surface in black or white as well as in many other colours and decors
- Practical hand transmitter for insertion in vehicle cigarette lighter
- Design hand transmitter in elegant chrome or aluminium

Stationary accessories

Place the stationary control elements in front of or inside the garage: open the door with a key, transponder, personal code or fingerprint.

- Control elements with BiSecur radio technology for fitting without cables
- Hygienic, non-contact door operation with radar button
- Key switch in a recessed version and surface-mounted version

Intelligently networked

Be it radio, smartphone app or external Smart Home system – choose your personal favourite for perfect control.

- Integration in existing Smart Home systems from homematic or deltadore via an HCP interface
- NEW from summer 2020: Hörmann Homee with BiSecur radio system for worldwide control via the free smartphone app

Entrance doors

The best choice for your home

Only from Hörmann

As standard for **ThermoSafe** and **ThermoCarbon** entrance doors

Only from Hörmann

Further information can be found at www.hoermann.de/sicherheitsversprechen

Aluminium entrance doors

Hörmann is the perfect choice for special entrance doors. The high-quality aluminium retains its shape, does not rot – and never needs to be painted.

- ONLY FROM HÖRMANN; ThermoCarbon RC 3 safety equipment as standard (optionally with RC 4) and excellent thermal insulation with a U_D -value of up to approx. $0.47 \text{ W}/(\text{m}^2\text{K})$
- ONLY FROM HÖRMANN; ThermoSafe with RC 3 safety equipment as standard and very high thermal insulation with a U_D -value of up to approx. $0.8 \text{ W}/(\text{m}^2\text{K})$
- ONLY FROM HÖRMANN: The 10-year security promise

Entrance doors

These inexpensive steel / aluminium doors offer you break-in-resistant safety equipment with multiple-point locking as standard and good thermal insulation thanks to the 65 mm or 46 mm thick door leaf.

- Thermo65 with multiple-point locking as standard and very good thermal insulation with a U_D value of up to approx. $0.87 \text{ W}/(\text{m}^2\text{K})$
- Thermo46 with multiple-point locking as standard and very good thermal insulation with a U_D value of up to approx. $1.1 \text{ W}/(\text{m}^2\text{K})$
- Optional RC 2 safety equipment

Design garage doors and entrance doors

Stylish door combinations and design elements made of stainless steel or glass for modern interior designs: Thanks to the many design variations with stylishly arranged embellishments, these design garage doors, particularly when combined with design entrance doors, become real eye-catchers and an expression of your good taste.

- Matching entrance door and garage door styles with elegant stainless steel frame
- More light in the garage thanks to styles with glazing
- Individual arrangement of design elements on garage doors

Steel doors

Quality from the basement to the roof

Multi-purpose doors

A multi-purpose door must withstand a lot over many years. Hörmann multi-purpose doors are stable, highly durable and weather-resistant and have been tried and tested for over forty years.

- Up to 49 % improved thermal insulation* with the MZ Thermo65 with a U_D -value of up to $0.87 \text{ W}/(\text{m}^2\cdot\text{K})$
- Glazing for more natural light indoors
- Individual designs with many colours and decors

Security doors

For cellar entrances, side buildings or garages we recommend the KSI / KSI Thermo security door with standard security equipment.

- Break-in-resistant RC 2 security equipment, with multiple-point locking and security bolt among other things
- KSI Thermo46 with door leaf with thermal break and optimum thermal insulation with a U_D -value up to approx. $1.1 \text{ W}/(\text{m}^2\cdot\text{K})$
- KSI Thermo46 with up to 30 % better thermal insulation compared to conventional security doors

Fire-rated doors

Benefit from Hörmann's expertise in fire protection: for doors in the boiler room or oil tank storage room, but also for the passage from the garage to the house.

- The best-selling boiler room door in Europe H8-5
- Fire-rated door H3 OD for the passage from the garage to the house
- Fire hatch for rooms with oil tanks

Steel internal doors

Internal doors ZK made of steel are highly robust, dimensionally stable and hard-wearing. They are suitable for cellars, children's bedrooms or as an entrance to an unrenovated loft.

- Sturdy door leaf with fully bonded honeycomb insert
- Individual room design with many colours and decors
- More light thanks to glazing

* Up to 49 % better thermal insulation for the MZ Thermo65 compared to a conventional multi-purpose door

Residential internal doors

Discover the new feeling of home

Timber internal doors

With a timber internal door from Hörmann, you are literally choosing a “door for life.” Our uncompromising quality assurance guarantees you a product with a long service life.

- Quadruple room concepts with ConceptLine doors in the high quality surfaces Ultramatt, Gloss (high-gloss), Slate and Linen
- Duradecor surface with around 48 % better shock resistance than the average of the tested CPL surfaces from other manufacturers
- 4Protect edge protection for doors with Duradecor surface in White paint, Light grey or Anthracite for high everyday demands

All-glass doors

Glass doors are not only upmarket and elegant, they contribute to an open and friendly design of your home. Furthermore, all-glass doors also give every room an unmistakable radiance.

- Many styles with nano coating for fewer fingerprints
- Styles matching Hörmann timber internal doors
- High-quality surface embellishment for individual light effects

Steel frames

Hörmann steel frames are particularly robust and long-lasting. The hot-galvanized, powder-coated primer surface can be painted individually, allowing you to match it perfectly to the steel or timber doors used.

- Double-shell steel profile frame VarioFix with a frame depth of 55 mm on both sides (matching timber internal doors) and wall width adjustment to compensate for wall tolerances of up to 20 mm
- Single- and double-leaf sliding door frames for glass and timber door leaves as a space-saving solution
- Frame without face with narrow frame depth and integrated door closers for modern interior designs

Garage doors and doors for blocks of flats

An economical overall solution with numerous design possibilities

Underground garage doors

As the need for parking space in cities and urban centres continues to increase, underground and collective garages are becoming more and more important. These garages are often built in mixed-use residential and commercial areas.

- Non-protruding up-and-over door ET 500: Permanent functional safety with minimal swivelling range
- Sliding door ST 500: Low space requirements for optimised use of space
- Underground roller garage door / rolling grille TGT: Complete solution including operator with power limit as standard

Entrance doors with letter box systems

The entrance door to a block of flats sets the tone for the entire building. Hörmann offers a large variety of individual possibilities for attractive designs. The entrance door can be combined with side elements, transom lights and letter box systems to fit your needs exactly.

- High thermal insulation with a U_D -value of up to approx. $1.3 \text{ W}/(\text{m}^2 \cdot \text{K})$
- Exclusive glass door styles
- Letter box systems and letter drops with bell button, light switch and intercom mesh

Apartment entrance doors

Fire-rated / security doors for apartment entrances in blocks of flats give residents a sense of security.

- Timber apartment entrance doors
- Large selection of decors
- matching many Hörmann residential doors

HOLMANN

Experience Hörmann quality in new construction and modernisation

Hörmann provides an excellent basis for comprehensive planning. Carefully matched solutions offer you the very best in perfectly designed products for every area.
