

RESIDENTIAL INTERNAL DOORS

Premium carpenter quality for high demands

HÖRMANN

Door and frame design

Premium carpenter quality for high demands

Attractive appearance with precision fit and installation-friendly corner connections **1**

Jamb lining

- Screwed corner connections with jamb lining connection
- Easily readjustable
- Strong friction locking

Cladding

- Solid-metal screw connections
- Excellent friction locking
- Direct pressure distribution on the connection surfaces
- No visible drill holes in the cladding

High dimensional stability thanks to the robust frame construction **2**

- Jamb lining 25 mm thick
- Jamb lining with Duradecor surface finish
- Melamine-coated backing
- Claddings made of MDF
- Wall edge 16 mm or optionally 23 mm
- Cladding 60 mm, 80 mm or optionally 70 mm

Permanently quiet closing thanks to a high-quality seal ³

- Two-chamber system
- Clean contact to the door leaf
- Good absorbing properties

Robust standard lock plate for added security ⁴

- Movable backfill
- Secured with six screws
- Double-turn locking
- Retrofit kits available

Hybrid hinge pocket prevents lowering of the door ⁵

- Carrying capacity 80 kg
- Reinforced metal plastic support
- Four-point screw connection in jamb lining
- Guiding sleeves extending to front edge of cladding
- for timber and glass doors

High stability thanks to door leaf with frame reinforcement ⁶

- Internal doors with 80 mm frame reinforcement
- On hinge side and lock side

Interior

Exterior

Duradecor surface finish

Extremely impact-resistant

Duradecor
Extremely impact-resistant

Permanent durability

With an impact resistance that is on average 48% higher, the high-quality Duradecor surface finish is clearly superior to CPL surfaces of other manufacturers. It is also especially easy to clean, heat-resistant and almost as robust as a kitchen worktop.

4Protect edge protector

Resistant edge

The 4Protect edge protector on flush-closing doors and rebated doors with angular edges offers a high resistance to impact, wear and scratches, meaning doors with a Duradecor surface finish are ideally protected against everyday stress.

Seamless white

The rebate edge of all doors with a white Duradecor surface finish is specially coated for a seamless appearance. In addition, the 4Protect edge protector ensures a seamless transition to the door leaf in doors with angular edges. You can enjoy a continuously white door appearance without bothersome unsightly edges, as can be found on standard doors.

The strong Duradecor surface finish is achieved with the decor, underlay and cover plate.
