Creating a special style with vertical ribbed look

The six decors impress with a stylish door look that blends seamlessly into the architecture of your home. Together with the decors in vertical grain, the printed vertical ribbings form a harmonious door design.

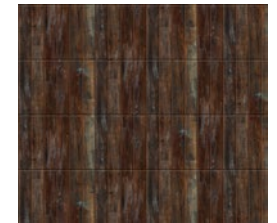

→ All decors and details can be found from page 42.

Duragrain decors with a matching look

For matching sectional garage doors and ThermoSafe aluminium entrance doors

Is a particularly harmonious overall appearance important for your home? Then we have the perfect unit of garage door and entrance door for you here. Our LPU 42 sectional garage door with expressive L-ribbing and the ThermoSafe aluminium entrance doors in 18 door styles are available in five decors with a perfectly coordinated matching look. The garage door and entrance door fulfil sophisticated design preferences, both individually and in combination.

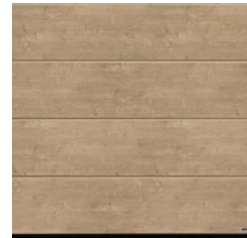

→ All decors with a matching look can be found from page 50.

Duragrain individual print

Design your personal Duragrain door

The digital printing process for the Duragrain surface opens up new possibilities for individual door design. Have you photographed a beautiful motif? An atmospheric landscape, for example. Simply upload the file in our configurator. There you can see in advance what it might look like afterwards and at the same time we check whether the quality is sufficient for our individual print. This makes your garage door truly unique.

→ Further information on the configurator can be found on page 6.

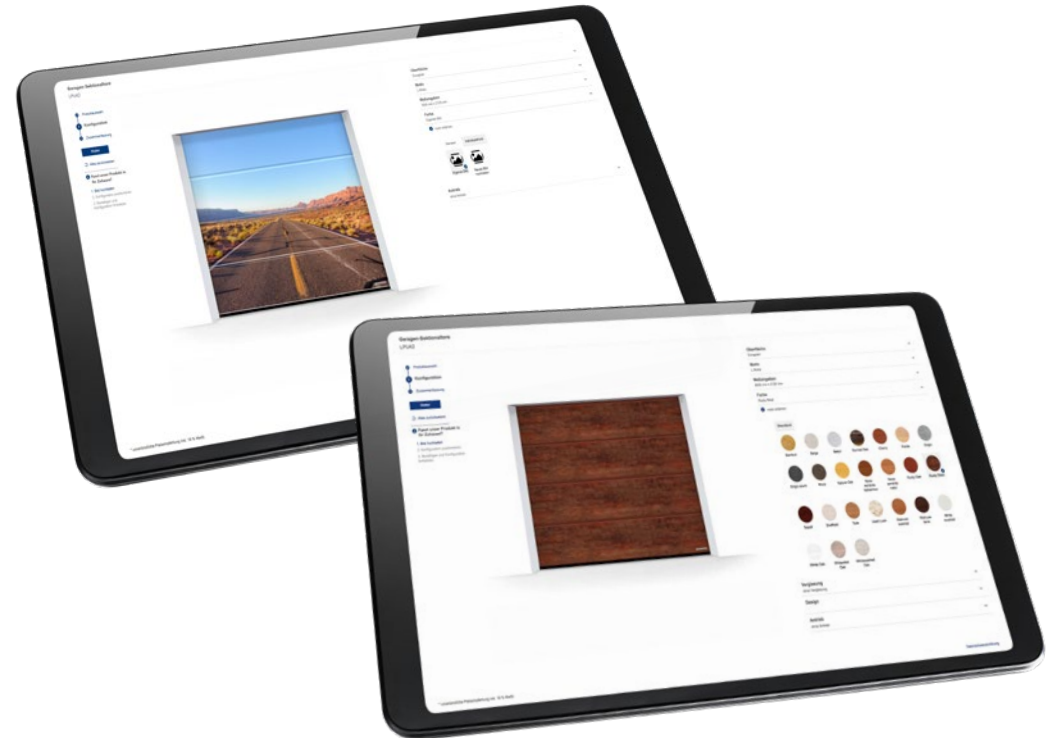

Configurator

The door of your choice in just a few clicks

With the door configurator, you can conveniently test many design and product variations on your own PC or tablet in advance. You can put your dream door together in just a few clicks by selecting the door type, surface finish, colour and size and also see the recommended retail price of your configuration (shown on the top right). If you then upload a picture of your house and place the door in your garage opening, you can see in advance how well your new garage door will match your home.

The Hörmann configurator can be found at:
www.hormann.co.uk/home-owners-and-renovators/configurator

Duragrain surface finish

With high-quality coating

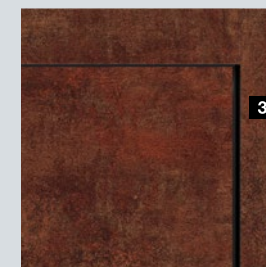

Duragrain

Extremely scratch-resistant

- 1** Double-skinned section
- 2** Galvanisation
- 3** Primer coating
- 4** Innovative digital print
- 5** High-strength protective paint

Duragrain doors are generally supplied in Grey white, RAL 9002, on the inside of the door. When the door is opened, a thin grey-white stripe can be seen between the sections on the outside. The fascia panel **1** provided always matches the door sections. The side frames **2** are available with a white Woodgrain surface finish as standard. With frame coverings **3** in the same surface finish and decor as the door section, you can enjoy a door appearance that is perfect in every detail. Optionally, window frames, glazing profiles as well as frame profiles for side doors are available in an NCS colour matching the decor.

Note

The colours and surface finishes shown are subject to the limitations of the printing process and cannot be regarded as binding. Please consult with your local Hörmann sales partner.
